Pet Name

KC Reg Name if Known

Microchip Number if implanted

DOB                      AGE

The Leonberger Club of Great Britain Draught Test Regulations require this health check to be carried out within the 7 days preceding LCGB Draught Tests, for all dogs entering Levels 4 and 5 and for dogs aged 7 years or over entering Level 3.

This is to certify that I have examined the above named dog and find him/her to be in good health.

In my opinion he/she is fit enough to take part in The LCGB Draught Test Level 3, which I understand to include an obedience type Control round without a cart, a short Obstacle course pulling a cart, followed by a cross country Haul of at least 1.5 miles. The dog will be pulling the cart over varying terrain including inclines to ascend and descend.

Or

In my opinion he/she is fit enough to take part in either The LCGB Draught Test Levels 3 detailed above or Level 4, which I understand to include an obedience type Control round without a cart, a short Obstacle course pulling a cart, followed by a cross country Haul of at least 2.5 miles. The dog will be pulling the cart over varying terrain including inclines to ascend and descend. During the Haul the cart will carry an additional load of 5kg for at least 50% of the distance.

Or

In my opinion he/she is fit enough to Take part in either The LCGB Draught Test Levels 3 or 4 detailed above or Level 5, which I understand to include an obedience type Control round without a cart, a short Obstacle course pulling a cart, followed by a cross country Haul of at least 3.5 miles. The dog will be pulling the cart over varying terrain including inclines to ascend and descend. During the Haul the cart will carry an additional load of 10kg for at least 50% of the distance.

Please delete any of the above not relevant to this dog.
